

Guard Panel N (Noncombustible) NM-2871

Dependable protection against rain, sun and impacts

These strong, flexible panels provide a high level of performance, including strength, flexibility and impact resistance which is always required for exterior material. They also provide weather resistance, and deterioration with age is minimal. Guard Panel N products are the ideal materials for wide range of requirements, including external walls and noise barriers.

Standard Dimensions

Thickness	mm	16.5 ±1.5	20 ±1.5
Width×Length	mm	910×1820、1000×2000	910×1820
Standard weight	kg/m ²	30.9	37.4

※Standard product weights are standard values adjusted for moisture absorption ratios.

Features

- High-strength flexible boards
- Excellent durability
- Superior weather resistance, even when unpainted
- Approved by the Minister of Land, Infrastructure, Transport and Tourism as a noncombustible material

Uses

- ◆ Exterior wall material for all types of buildings
- ◆ Opposing walls and noise barriers in stations, etc.
